**POKRET
EVROPA SAD!**

MANIFEST MLADIH EVROPE

SLOBODNO ■ RAVNOPRAVNO ■ AUTONOMNO

POLAZIŠTE

Mladi Evrope su savremena omladinska organizacija koja promovise slobodarske vrijednosti, pozicionira ekonomiju u fokus javnog diskursa i zastupa centrističku ideju političke umjerenosti. **Mladi Evrope** vjeruju da društvo Crne Gore treba biti integralno, sekularno, kosmopolitsko i odlikovano vrijednostima suverenizma, pacifizma i pluralizma.

Kao temelje daljeg političkog i društvenog razvoja Crne Gore, **Mladi Evrope** vide vladavinu prava, direktnu demokratiju, održive i zelene politike, digitalnu, meritokratski-orijentisanu i slobodnotržišnu ekonomiju, regionalnu i međunarodnu saradnju.

Mladi Evrope najsnažnije se suprotstavljaju svim vidovima radikalizma i političkih krajnosti uključujući ksenofobiju, homofobiju, seksizam, rasizam i nacional-šovinizam. **Mladi Evrope** prepoznaju demokratsko uređenje društva kao neprikosnoveno, te se protive savremenim pojavama koji ga podrivaju uključujući populističko-autokratske narative i dezinformacione kampanje.

Mladi Evrope od posebnog značaja za društvo vide razvoj kulture, obrazovanja i nauke van domena političkog i vjerskog uticaja, te podržavaju svaki napor uložen ka isticanju važnosti akademskog integriteta, poštovanju prosvjetiteljske misije i borbi protiv anti-intelektualizma.

VIZIJA

POJEDINAC

Svaki pojedinac se rađa slobodan i jednak u dostojanstvu i pravima. Najmanje brojna manjina je pojedinac. Poricanje individualnih prava u korist kolektivnog dobra nije korisno ni za društvo ni za pojedinca, sljedstveno tome Mladi Evrope njeguju individualizam. Protivimo se narušavanju i ograničavanju slobode govora, mišljenja i izražavanja umjetničkog, vjerskog, nacionalnog, rodnog i drugih vrsta identiteta od strane pojedinaca, društva ili vlasti.

Svaki pojedinac idealno teži samorazvoju. Djelovanje pojedinca najoptimalnije je za njega/nju/njih i društvo kada je autonomno, usmjereno ka ispunjavanju sopstvenog potencijala i vođeno sopstvenom voljom zavisnom od moralne odgovornosti.

DRUŠTVO

Društvo ka kojem težimo je otvoreno i građansko i ne temelji se na tribalističko-kolektivističkoj paradigmi. Takvo društvo je skup slobodnih i autonomnih pojedinaca jednakih šansi udruženih na principima dobrovoljne saradnje. Jedino u takvom formatu društvo garantuje neprikosnovenost ljudskih prava, političke i ekonomske slobode i inkluzivnost svih manje brojnih grupacija. Uloga Vlade ne treba biti paternalistička, već usmjerena ka garantovanju prava i sloboda, prvenstveno bezbjednosti i pravne sigurnosti građana i poslovnih subjekata.

EKONOMIJA

Polazeći od usmjerenosti **Pokreta Evropa sad!** ka ekonomskom osnaživanju građana Crne Gore, Mladi Evrope radiće na finansijskom opismenjavanju i ekonomskoj edukaciji opšte javnosti. Crna Gora prioritarno mora težiti ekonomskom rastu i razvoju na održivim osnovama. Stoga, se zalažemo za afirmisanje koncepta privatne svojine i slobodnog tržišta i odbacivanje intervencionizma. Otvaranjem ekonomije, uklanjanjem poreskih barijera i regulacija, daje se prilika da preduzetničke inicijative budu katalizator ekonomskog prosperiteta, time se i eliminiše crnogorskoj ekonomiji svojstven kronizam. Neophodna etapna digitalizacija i racionalizacija javne uprave izvjesno će pomoći odstranjivanju nepotističko-klijentelističkih modela zapošljavanja i u srednjem roku djelovati ljekovito na ekonomiju. Strateško osavremenjivanje ekonomije mora se oslanjati na implementaciji finansijskih tehnologija (fintech), blockchain tehnologiji, razvoju kvartarnog sektora, fleksibilizaciji tržišta rada i unapređenju humanog kapitala.

EUROPE NOW!
MOVEMENT

MANIFESTO OF THE YOUTH OF EUROPE

LIBERTY ■ EQUITY ■ AUTONOMY

FOREWORD

The Youth of Europe is a modern organisation which promotes liberty values, positions economy as the focal subject of the public discourse and stands for the centrist idea of political moderation.

The Youth of Europe believes that the society of Montenegro ought to be integral, secular, cosmopolitan, and characterised by the values of sovereignism, pacifism and pluralism.

The Youth of Europe sees the rule of law, direct democracy, sustainable and green policies, digital, merit-based, and free-market economy, regional and international cooperation as the foundations of the further political and social development of Montenegro.

The Youth of Europe strongly opposes any form of radicalism and political extremism including xenophobia, homophobia, sexism, racism, and national chauvinism. **The Youth of Europe** recognises democratic order of society as inviolable and opposes contemporary phenomena which undermine it such as populist-autocratic narratives and disinformation campaigns.

The Youth of Europe considers the development of culture, education, and science without religious and political influence as of particular significance for the society, hence supports every effort invested in emphasising the importance of academic integrity, educational mission and resisting anti-intellectualism.

VISION

INDIVIDUAL

Every individual is born free and equal in dignity and rights. The smallest minority is the individual. Denying individual rights in the name of the collective greater good is not beneficial either for society or any individual, therefore The Youth of Europe nurtures individualism. We oppose violation or limitation of the freedom of speech, thought and expression of one's artistic, religious, national, ethnical, gender or other categories of identity imposed by an individual, society or the government.

Ideally, every individual strives for self-development. Individuals act in the most optimal way for him/her/them when they are autonomous, free to achieve self-potential and led by self-interest dependent on moral responsibility.

SOCIETY

Our aspiration is for society to be open and civic, hence rejecting the tribalist-collectivist paradigm. Such a society is a set of free and autonomous individuals with equal opportunities gathered on the principles of voluntary cooperation. Only such a social format ensures the inviolability of human rights, political and economic freedom and inclusivity of minority groups. The role of government should never be paternalistic, but rather the government should guarantee freedom and rights, primarily the safety and legal security of citizens and businesses.

ECONOMY

Arising from the fact that **The Europe now! Movement** is oriented towards economic empowerment of the citizens of Montenegro, The Youth of Europe will be committed to enhancing financial literacy and economic education of the general public. Montenegro must primarily strive for economic growth and development on a sustainable basis. Therefore, we advocate for the concepts of private ownership and free market and rejection of government interventionism. By opening the economy, and removing tax and regulatory barriers, we provide an opportunity for entrepreneurial initiatives to be catalysts of economic prosperity, thereby also removing cronyism deeply rooted in the Montenegrin economy. The necessary digitalisation and rationalisation of the public administration will undoubtedly facilitate removal of nepotist-clientelist model of employment and in the medium run, it will have a healing effect on the economy. Strategic modernisation of the economy must rely on the implementation of financial technologies (fintech), blockchain technology, development of the quaternary sector, flexibilisation of the labour market and human capital development.
